

**NEW DEALERSHIP ANNOUNCEMENT:**

**THE GUNTERT MILLER ALLIANCE WELCOMES ITS NEW DEALER IN EGYPT**

Ripon, CA and McHenry IL, U.S.A. August 21, 2019 – We are excited to announce MEMO Industrial Planning Ltd. our new dealer in the Arab Republic of Egypt. Under the agreement, MEMO Industrial Planning will be engaged in the resale of both G&Z and Miller Formless’s concrete paving equipment lines, sales of spare parts and service, training of equipment operators, aftermarket and application support in Egypt.

G&Z is the leader and innovator in the concrete slipform paving equipment industry. The company’s concrete paving equipment line for highways and airports are efficient, productive, durable, highly versatile and easy to operate.

Miller Formless is also a leading provider of mid-sized automated paving systems such as curb, gutter and sidewalk construction equipment.

MEMO, on the other hand, is a market leader in the Egyptian equipment services and industrial planning sector. Since early 1960s MEMO is providing unique solutions to the construction industry including resale of various concrete equipment and spare parts.

Ahmed El Refaee, Technical Manager of MEMO is very optimistic about the future: “The Guntert Miller Alliance has a very big market potential in Egypt. We have been proudly representing several western machinery producers in Egypt and looking forward to expanding our scope of business to concrete road construction equipment”.

“As the concrete paving industry leaders both Guntert and Miller Formless have always prioritized contractors’ needs and the Egyptian contractors will benefit greatly from the high quality, reliable and durable equipment provided by the Alliance. This partnership will surely help us enhance and grow our business in Africa”, added RK Shaw VP International Sales and Service of G&Z.

The Guntert Miller Alliance is excited about the opportunities the partnership with MEMO creates. We are looking forward to helping our future customers in Egypt succeed in achieving their goals by building smooth and durable highways for the nation of Egypt.
